SCIENTIFIC INSTRUMENTS

TEST-ONE TR

TEST-ONE TR is a thermoreactor able to disgregate 5 samples simultaneously for COD and total Phosphorous. TEST-ONE TR accepts 5 cuvettes of 16 mm size. Other wet disgregations can be performed by proper reaction on cuvettes of 22 mm size. An acoustic alarm advises the end of the disgregation time.

Technical Features

Temperature points:	100°C/148°C selectable
Selectable time:	from 0 to 999 minutes by its key Buttons
Cuvette slots:	5 of 16 mm size 1 of 22 mm size
Power requirements:	220 V. A.C. ± 10 %, 50-60 Hz
Measurements:	cm 26 x 15 x h 120
Weight:	Kg 4.5
